MASTER OF PHARMACY (BY RESEARCH)

(R2/0916/7/0010) (10/29) (MQA/FA 4435)

DURATION	INTAKES
Full Time: 2-5 Years	Ongoing

PROGRAMME DESCRIPTION

Master of Pharmacy (By Research), offered by Lincoln University College, provides the students a comprehensive understanding of the various aspects of pharmacy, so that they are able to learn about the use as well as the mechanism of the varied types of drugs. Students are also taught about the new and advanced methods necessary for the formulation of design and interpreting of investigations that are conducted. The aspect of interpreting of investigations related to pharmacy enhances the critical thinking ability of the students, so that they are able to contribute significantly to the field of pharmacy in the future.

For successful completion of Masters degree in LUC, each candidate should publish minimum of Two research articles in scopus indexed journals, with Lincoln affiliation.

PROGRAMME AIM

We emphasize on the aspect of decision making, so that the students are able to take correct decisions at the pre-clinical, clinical and the post approved stages related to the development and invention of new drugs. Thus our program, will help the students to emerge as professionals, who would dedicate their life towards the advancement of healthcare by integrating the new pharmaceutical research findings with their service or practice.

Our research and lecture sessions, would also make the students capable enough to work as clinical educators or clinical scientists in the professional academic field.
