Bachelor of Accountancy

(N-DL/0411/6/0114) (11/32) (MQA/PA 18520)

PROGRAMME DESCRIPTION

The Bachelor of Accountancy (ODL) programme, under LUC's School of Accounting and Finance, prepares students to become skilled, confident, and industry-ready accounting professionals. Through a well-structured mix of foundational, intermediate, and advanced subjects, students develop strong competencies in financial reporting, auditing, taxation, management accounting, and corporate finance.

The curriculum also incorporates essential business knowledge, economics, technology, quantitative methods, and ethics to ensure graduates understand the broader business environment. Practical learning is strengthened through the inclusion of Accounting Information Systems, Business Technology, and a final Industry Training placement that provides hands-on, real-world experience.

Designed to build both technical proficiency and professional character, this programme equips students with the knowledge, analytical abilities, and ethical mindset needed to succeed in accounting, finance, and related fields in today's dynamic global marketplace.

PROGRAMME AIM

The Bachelor of Accounting (ODL) programme will produce potential professionals who are:

- Knowledgeable and skillful to understand the role of accounting for internal and external reporting purposes
- Knowledgeable and skillful to understand the role of accounting for internal and external reporting purposes
- Able to communicate in a team to initiate, execute and evaluate a finance plan for the development and practice of critical thinking skill with effective managerial skills to solve problems as a leader.
- Able to be engage in independent and life-long learning in the broadest context of technological change for accounting in the public, private and international spheres.

CAREER OPPORTUNITIES

Graduates of this programme are prepared for a wide range of professional roles in the accounting, finance, business, and corporate sectors. This comprehensive curriculum equips students with the technical expertise, analytical ability, and ethical mindset required by today's dynamic organizations.

With strong foundations in both accounting principles and advanced subjects such as performance management, financial markets, corporate finance, AIS, and business technology, students are able to apply their knowledge confidently across various industries.

The programme also nurtures communication skills, leadership qualities, and professionalism, further enhancing graduates' readiness for both managerial roles and entrepreneurial ventures within the financial field.

Career opportunities for graduates include, but are not limited to:

- Accountant
- Accounting Assistant
- Accounting Clerk
- Audit Associate / Auditor
