

LINCOLN UNIVERSITY COLLEGE
DKU016 (B)

2022 SETARA COMPETITIVE UNIVERSITY COLLEGE

ISO 9001:2015 Certified

DOCTOR OF DENTAL SURGERY (DDS)

(R2/724/6/0007) (11/29) (MQA/FA 1048)

PROGRAM DURATION

Full time: 5 Years

INTAKE

November

PROGRAM DESCRIPTION

This program is conducted in two stages:

1. Preclinical Phase – A two year program, which covers Medical Science courses (Anatomy, Physiology, Biochemistry, Microbiology and Dental Courses (Professional Development and IT, Oral Biology, Society and Health, Preventive Dentistry, Dental Public Health, Dental Materials and Dental Technology). The latter is designed to help the students learn about the technical aspects of the dental program. Assessments take place in every semester along with yearly professional examinations.
2. Clinical Phase – This phase covers the next three years of study. In this phase, integrated teaching and learning process is undertaken to expose the students to dental clinical work and it also helps them to learn about community dentistry. This program offers the students with the opportunity to enhance their critical thinking skills and acquire knowledge about a particular discipline of dentistry through research exercise, which is of interest to them. It includes subjects, such as Preventive Dentistry and Dental Public Health, Oral Maxillofacial Surgery, Conservative Dentistry, Prosthodontics, Periodontology, Orthodontics, Paediatric Dentistry, Oral Pathology, Oral Medicine, Dental Imaging, Endodontics and Dental Research. Students of this program, will also be exposed to medical subjects namely; General Medicine and General Surgery for better treatment of patients with chronic illness, who may require special needs as far as dental treatment is concerned.

PROGRAM AIM

To produce graduates, who are equipped with scientific knowledge, skills and commendable attitudes, so that they emerge as responsible and competent dental practitioners and promote safe dental practice within the society or community.

CAREER OPPORTUNITIES

There are excellent career options for Dental graduates and they can wish to pursue their career as dental officers in the Ministry of Health, Malaysian Armed Forces or any other government agencies. Students can aslo work in clinics or can choose to work in universities or institutions as lecturers/professors. Students interested in research, can opt to work in research centers or corporate agencies, to advance their career.

Graduates of Dentistry of Lincoln University College are eligible to be registered with the Malaysian Dental Council and undergo a two-year compulsory service (Malaysian citizens only) or any other requirement(s) depicted by the Malaysian Dental Council, on a frequent basis.

DOCTOR OF DENTAL SURGERY (DDS)

(R2/724/6/0007) (11/29) (MQA/FA 1048)

ENTRY REQUIREMENTS

A. The selection for admission to a Bachelor of Dental Surgery programme or equivalent implies selection for the dental profession.

A person who is qualified in Dentistry from a dentistry programme recognized by the Malaysian Dental Council ("Council") is entitled to be registered by the Council. The fitness to practise Dentistry of the applicant shall be considered in the selection for entry into any dental programme.

B. The practice of Dentistry requires the highest standards of professional and personal conduct as well as professional competence.

1. Although some students have attained the academic standards required, they might not be suitable to for a career in Dentistry. This is to safeguard the interest of the public and of the applicant himself. It is better not to gain admission than to subsequently have to leave the course or profession.

2. It is the responsibility of the dental school to ensure that there are no particular circumstances that will impact upon an applicant's fitness to practise upon graduation.

3. All applicants shall declare if they have all the followings which may impact upon their future practice.
i. been found guilty of any criminal offence(s);
ii. serious physical or mental illness; and/or
iii. serious communicable disease(s).

4. A person with any of the following shall be disqualified from entry into a dental programme:
i. found guilty of offence(s) affecting the human body;
ii. recent or serious dishonesty e.g. cheating in examinations, falsification of documents, plagiarism;
iii. serious physical or mental disorder;
iv. serious communicable disease(s) for which there are no available acceptable methods of protection

5. Failure to declare information that has a material influence on a student's fitness to practise may lead to termination of their dental course, as honesty, integrity and good health are essential attributes of a dental practitioner and by extension, the dental student.

6. In the event of any doubt, the dental school shall seek clarification from the Council.

7. All decision makers of dental schools and aspiring applicants are advised to study the Council's guidelines available at www.mdc.gov.my.

C. A high level of academic attainment is expected.

1. An understanding of science, in particular chemistry and biology, is central to the understanding of Dentistry. However, the Council recognizes the diversity of subjects taken by applicants and the contributions of those who have entered dental schools with other qualifications.

2. All applicants shall have attained a level of competence in English to enable them to complete the course successfully.

3. All applicants entering the dental programme via matriculation, foundation or pre- dental programme, except those with a degree qualification, STPM or A level shall have passed and attained a minimum of the following at School Certificate level or its equivalent:

Examinations	Requirements
Sijil Pelajaran Malaysia (SPM)	5 Bs each in: • Biology and • Chemistry and • Physics and • Mathematics/ Additional Mathematics, and • Another subject (except Art/ KSI) (KSI referring to the subjects of Kemanusiaan & Sastera Ikhtisas)
