BACHELOR IN DIGITAL FILM TECHNOLOGY (HONOURS)

KPT/JPS (PA 10529)07/24

DURATION	INTAKES
Full Time: 3 Years	March | July | November

PROGRAMME DESCRIPTION

The Bachelor in Digital Film Technology (Honours) program with Lincoln University College is designed to provide students with a comprehensive understanding of the art and technology behind digital filmmaking. This program combines theoretical knowledge with practical skills, covering various aspects of film production such as cinematography, editing, sound design, visual effects, and screenwriting.

Students will learn how to use advanced filmmaking equipment and software, develop storytelling abilities, and understand the principles of visual aesthetics. They will also gain insights into industry trends and practices, preparing them to work on different types of projects, including feature films, documentaries, commercials, and digital content.

Throughout the course, students will have opportunities for hands-on experience through workshops, collaborative projects, and internships, allowing them to build a strong portfolio. By the end of the program, graduates will be equipped with the creative and technical skills needed to pursue various roles in the film industry, such as film director, cinematographer, video editor, sound designer, and visual effects artist.

CAREER OPPORTUNITIES

Graduates of the Bachelor in Digital Film Technology (Honours) program will be well-prepared for a wide range of career opportunities, such as:

- E-commerce Developer Film Director
- Cinematographer/Director of Photography
- Film Producer
- Film Editor
- Screenwriter
- Production Designer
- Sound Designer
- Visual Effects (VFX) Artist
- Storyboard Artist

PROGRAMME AIM

The program shall produce graduates who will be able to:

- Analyse and relate broad knowledge of Film Technology concepts and principles to applying technical skills in digital movie making.
- Demonstrate responsible leadership by ethically engaging with society, diligently completing assigned tasks, and fostering positive communication.
- Apply technical skills, including digital technology and numerical techniques, to enhance the creative possibilities of film production.
- Embrace lifelong learning and entrepreneurial thinking to drive academic and career success in the Digital Film industries.
