FOUNDATION IN SCIENCE

(R3/0011/3/0268) (08/31) (MQA/FA 0575)

PROGRAMME DESCRIPTION

Our Foundation in Science course; has been specifically designed to provide the students with the required knowledge, which will enable them to opt for undergraduate science / engineering / medicine/ pharmacy degree courses. Students who successfully complete a foundation course are therefore able to progress into year one of their chosen degree subject providing they have taken the relevant pathway modules and passed them at the required standard. Lincoln's foundation year courses are bridging courses designed to provide students with the appropriate academic background for study at Bachelor degree level.

PROGRAMME AIM

1. The purpose of this program is to provide excellent Pre-University edification that prepares the students to meet the requirements of undergraduate studies.
2. The courses trains the students with a certain amount of resilience where students can make their own choices regarding further studies.
3. As a result of this exposure the students develop a stronger foothold than the others and gain a holistic education.
4. The program endows the students with scholarly attributes and discipline, at the same time infuses leadership qualities and helps in personality development.

PROGRAMME DURATION

Duration: 12 Months

CAREER OPORTUNITIES

The programs of Foundation in Science are formulated in such a manner, so as to acquaint the students with the core science subjects. After qualifying in this course the students will be prepared to enroll for a science-based degree and will acquire numerous beneficial skills. A thorough understanding of the science subjects, will help the students to choose the specialized area of his/her interest. Foundation degrees are basic courses for higher education qualification and work-related orientations.
